ABSTRACT

The 143 listings of this general bibliography provide the most current information on urban and regional planning. Most of the entries date from 1973 to 1975 and are comprised of commercially published books, reports, papers, and studies. The citations also include foreign documents. Some entries are annotated. Citations are alphabetized by author and include the title, date, number of pages, and availability. An author and title index and a list of some publishers' addresses conclude the document. (JR)
